GÜVEN

ENDÜSTRİ MAKİNE İMALAT SANAYİ ve TİCARET A.Ş.

CONCRETE PUMPS & TRUCKMIXER SPARE PARTS PRODUCTION

History

It was established in 1968 by Mehmet AYDAR in Ankara Ata Industrial Zone as a small lathe workshop. During first years this workshop continued operation with various metal cutting and spare part production works. In 1980s together with the newly launched sector of Ready Mix Concrete in Turkey, they started to produce replacement spare parts for Concrete Pumps and Truck Mixers.

Our company moved its headquarters to OSTIM Organized Industrial Zone in 1992 and increased their production capacity and continued the way with the services in order to accomplish a reliable brand with respect to their high quality products and product range in Concrete Pump and Mixer spare parts.

After 2008, it continues production together with its experienced staff in their powerful factory that comprises 7,000 m^2 covered area at Ankara Sincan Organized Industrial Zone.

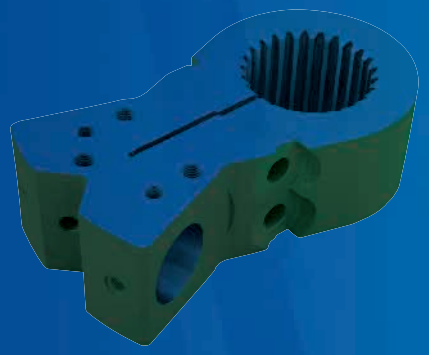

Latest technology Machinery Park, high quality product range, quick delivery from the stocks, successful solutions, customer satisfaction, reliability, integrity in code of conduct makes the company to possess a deserved position both globally and domestically in its field as a manufacturer company.

Thanks to the accomplished trust and success our company today exports their products to more than 30 countries in the World. Güven Endüstri Makina A.Ş. which utilizes the leading edge production technologies increases its production capacity day by day and continues its growth together with their new range of products.
